Working Title: Two Worlds

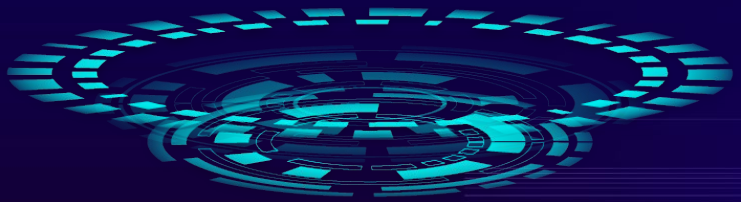
Description:

Two Worlds will be MMORPG open world/metaverse game build on Unity engine with in-game crypto currency and in-game NFT assets

Features:

ERC20 token on Conflux Network to be used for in-game currency-Looting enemies,quest rewards etc.

ERC 1155 NFT to be used for in-game NFT marketplace-Weapons/Armors



Use cases:

ERC20 token on Conflux Network-Using limited supply of tokens and distribute them trough game with limitation in time like mining will prevent over sell of token.Every day will be distributed N number of tokens trough quest rewards and looting enemies.

ERC 1155 -Put every players to can buy 2 NFTs like Armor/Weapons.This will prevent pay to win model.No matter how much tokens you have you can buy just 2 of all NFTs and cant ruin the marketplace.

TIMELINE 2023

20 July
Finished demo with functional ERC20 and ERC1155 for Conflux Workshop

01 August
Start all social channels of the project.Start to build hype in crypto space

01 September
Finished main game mechanics.Add characters(2 races)and lootable enemies
